

Projects using IDAPT today

SecureIoT

SecureIoT - <https://secureiot.eu/>

- ⊕ SecureIoT is an EU funded project that focuses on delivering predictive IoT security services, which span multiple industries, IoT platforms, and networks of smart objects.

- ⊕ IDAPT acts as a telematics ECU providing the SecureIoT services with vehicle and performance data to detect anomalies and irregular behavior.

- ⊕ SecureIoT services:
 - Security Auditing & Compliance.
 - Security Risk Assessment.
 - IoT Security Threats Database.
 - Annotations for supporting application developers.
